American Horticulture Dropshipping Hummert International is a Missouri based commercial distributor of horticultural supplies and equipment which was started in 1932 by August Hummert Sr the founder of the company. Hummert International started as a seed supplier to small florists, gardeners and vegetable growers of St. Louis. Subsequently other members of the family joined the business to help the business of Hummert International grow to what it is today. Today the company has grown to a product range of more than 32000 of all kinds of horticultural supplies and Greenhouses. They are spread out in 3 other locations in the US and export their products to more than 70 countries. The company does have a dropshipping program with certain specific terms for dropshipping. The website of the company is very detailed and provides all necessary details for dropshipping. The contact details including address and phone numbers as well as mailing forms are available for resellers to get all necessary information on dropshipping. They also have a separate mail id for those who would like to export.
