Thai Cosmetic Dropshipping Stherb Cosmetics International Co., Ltd is a Thailand based company that deals with breast enhancement products for women founded by Ben Thanisorn. Products of Stherb Cosmetics International Co., Ltd. are made out of extracts of Pueraria Mirifica and Butea Superba found in Kwao Krua a fruit traditionally known to have the power to enhance breast size. Stherb Cosmetics International Co., Ltd. after much research came up with these 2 products and ever since has been expanding their operations around the world in more than 30 countries. These products are approved by CTFA. Today the company has decentralised its operations. They operate from Thailand, China and Malaysia. The company has 3 offices in Malaysia. In the modern day culture where women are more expressive there is more interest in building up their confidence and hence resort to breast enhancement. The company also has a dropshipping program. Once a person becomes a member of their dropshipping program all support is provided by way of resource materials and price discounts. More specific details of the dropshipping program is available in the web page. Enquiries on dropshipping can also be made through the online form provided in the website. The address and phone numbers of the offices are also available in the website.
