2715 Electronic Lane  
Dallas  
Texas 75220

Phone: 214-366-3496

American computer peripherals wholesaler Grandtec is an American manufacturer and wholesaler of unique computer peripherals based in Dallas in the state of Texas. The company has been in business for over 18 years, and has been serving customers in the professional, education and consumer markets. Products offered by Grandtec USA include a squeeze dock for iPhones, virtually indestructible keyboards in different models invented and manufactured by the company, virtually indestructible mice, HDMI cables, and PoE and PoE+ switches. The company boasts of having invented the “first waterproof, sterilizable, non-allergic silicone based keyboard and mouse.” To become a reseller and have access to Grandtec USA’s wholesale prices, one just needs to submit their Federal Tax ID number or state resale license to apply. Their drop shipping service is available for a minimal fee of \$5 per drop shipping address. For any other inquiries or concerns, customers may contact them by phone, email or fax.
