Wholesaler of educational toys Anatex prides itself in using the highest quality materials and manufacturing hand-crafted, durable products that are built to last. We manufacture almost all of our items in the USA! Our products are known for their unique, creative and innovative designs. Our play centers and furniture are inviting, eye-catching centerpieces and make for beautiful décor for the home, schools, and waiting rooms. Our products open a world of imagination and discovery, while teaching important skills such as eye-hand coordination, color recognition, counting, and visual tracking, and more! Anatex is honored to be recognized in the industry for the creativity, quality, and educational and entertainment value of our products, many receiving prestigious awards. Established in 1982, Anatex was the first company to manufacture and distribute Rollercoaster wire bead maze frames. We have become a leader in creating and manufacturing top-quality educational and waiting room toys and furniture for over 30 years. Our waiting room activity centers and wall panels are designed to be compact to save space, filled with activity for endless play, and with no loose-pieces, making them the perfect solution for community spaces.

Anatex offers a wide array of sensory toys, educational games, activity tables and centers, play wall panels, and children's furniture and décor!
