Wholesaler of Religious gifts and décor It all began over 30 years ago with a non-credit class in college. My major was Advertising Design. One of the required classes was a basic lettering class. I loved learning the various fonts, designs, and ways to create interest with lettering. I enjoyed it so much, my teacher picked up on my affection and suggested I take a non-credit calligraphy class. And there began a passion to learn as much as I could. Calligraphy is also known as The Art of Beautiful Lettering. I made it my goal to master the art of creating those swirly thick and thin lines that dressed up the alphabet. With an art background and the love of calligraphy, I married the two with the intent to create meaningful designs that would uplift, inspire, confirm and witness. My goal with each piece of art and lettering I create is to draw the reader in by the art followed by the message, scripture or inspirational thought. I am also a picture framer so I choose matting and frames that compliment each other giving the customer a beautiful piece to hang on their walls, office or to give as a gift. Many items can be personalized with a name/date. This is done by inserting a piece of paper with the name/date behind a cutout window in the bottom of the matting. Come on by and shop online. We are open 24 hours a day. You will find a selection of calligraphy, art and other gift items for many occasions.
