Drop shipper of general goods and gifts EDM was started in Fort Wayne, Indiana in 2003. Our mission has always been to purchase a wide variety of consumer goods directly from manufacturers and deliver them to our buyers at the absolutely best prices anywhere. In order to achieve that we cut out all non-essential steps in our procurement process, we buy in large quantities, we own and warehouse all of our items and keep our margins to a minimum. Over the years the company has outgrown a number of warehouses and added quality team members, but the goal remained the same. Currently EDM is still headquartered in Fort Wayne, Indiana and we have global offices in Asia and Europe.
