Wholesaler of promotional merchandise Mr. Mugs and Awards, a division of The Glass Printer, Inc., was established in 1979 initially offering custom printed glassware and ceramicware, photographically produced metal photo and full color award plaques and related awards. Mr. Mugs and Awards has since grown to encompass a broader spectrum of unique services to include sand etching, laser engraving, scratch engraving, screen and pad printing and sublimation. This expansion has increased our ability to create custom products such as glassware, trophies, metal photo plaques, medals, full color awards, nameplates, tags, pins, promotional items and novelty gifts. Our custom glassware includes, but is not limited to, shot glasses, wine glasses, steins, beverage glasses, stemware, sports mugs, glass mugs, ceramic and travel mugs customized for your specific purpose. Many imprint styles, colors, layouts, and designs are available to ensure that your chosen product reflects your sentiment or event. Our plaques showcase creative freedom to include lettering, photos and logos, or both. Artwork can even be produced in full color to suit your specialized need. Photographs, logos, signatures, and even magazine articles are reproduced with unsurpassed detail on an aluminum plate, which can then be mounted on a wood backing or another surface of your choice. For a multitude of options, we also offer plates and nameplates (metal, photo or plastic), laser etched awards, glass awards, trophies, medals, markers, pins, glass paperweights, favors, gifts and promotional items. Additional options are available!
