Social business dropshipping FTQ&Cs is a "social business" which adheres to "Fair Trade" principles established to support artisans in the developing world. Every product that FTQ&C sells is created by artisans in a "Sweatshop Free" environment. One can read more about their work and mission and principles on the "About Us" page. As Fair Traders, they pay artisans at least 50 percent more than they are paid within their local market. However, because FTQ&C buys directly from the artisans, they are able to offer them at a great price which is good news for those interested in dropshipping. For enquiries regarding dropshipping detailed instructions are given in the ordering and FAQ section of the website.
